

**SIMPLE CONSTRUCTION**

Simply join the pods together using as many Pontoonz© as you want., using H3 treated timber alloy, or fibreglass beams. 12mm stainless or galvanised bolts are used to fasten beams.

Transverse beams are fastened between the two hulls, adding a plywood, alloy or fibreglass deck system.

Add deck fittings to suit - bimini, railings, boarding ladder, cleats, carpet, trimmings, furniture to suit ... your house if you want.

Easy to unbolt or reassemble after winter storage or for transporting.
